WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

INTRODUCTION

This report is one of a continuing series by NPIC on North Korean port and naval installations. Tasa-ri is an insignificant port facility capable of accommodating, at best, small coastal cargo vessels. Hinterland access is provided by both rail and road, however, Tasa-ri is somewhat removed from any urban complex which it may be intended to serve.

NAME

Tasa-ri Port Facilities

COUNTRY GEO COORDINATES

KN 39-48-53N 124-24-56E

7.3 nm south of Yongampo-ri.

These port facilities are located adjacent to a small, agriculturally oriented village and are capable of handling only very limited numbers of small coastal cargo vessels.

Facilities include 1 small marginal wharf, a small boat repair facility with a small graving dock and 4 support buildings, and 1 administration/support building.

The estuary of the Yalu river is obstructed by islands, sandbanks, and shoal patches. The approach channel has depths of 12 to 20 ft.
